

INCENTIVE PROGRAMS

June 1, 2016 through May 31, 2017

PROGRAMS

SAMPLE PROJECTS

ELIGIBILITY

BUSINESS EXAMPLES

FACILITY ASSESSMENT

An on-site investigation conducted by a ComEd engineer to identify energy efficiency opportunities eligible for Smart Ideas® incentives.

- » Industrial facility
- » Office building
- » Hospital
- » Private university
- » Shopping center

All commercial and industrial customers

Office buildings, grocery stores, manufacturers, warehouses, hospitals, private universities

STANDARD INCENTIVES

Cash incentives for common energy efficiency improvements to commercial and industrial lighting, HVAC, refrigeration and other systems.

- » T8 and T5 lighting
- » Indoor and outdoor LED fixtures
- » Building automation systems
- » Controls and sensors
- » Chillers
- » Lighting control systems
- » VSDs

All commercial and industrial customers

Light industrial facilities, warehouses, office buildings, healthcare facilities, retailers

CUSTOM INCENTIVES

Cash incentives for complex energy efficiency projects not covered by standard incentives.

- » Process and/or system improvements
- » Process automation
- » New technologies (e.g., geothermal)

All commercial and industrial customers

Manufacturers, warehouses, large grocery stores, office buildings

BUSINESS INSTANT LIGHTING DISCOUNTS (BILD)

Energy-efficient lamps available to businesses at a reduced price from participating electrical distributors.

- » Screw-in LED lamps and trim kits
- » LED exit sign products
- » Reduced wattage T8 and T5 lamps

All commercial and industrial customers; contractors that purchase lamps for maintenance and replacement

Office buildings, warehouses, large restaurants, large grocery stores, retailers

NEW CONSTRUCTION

Cash incentives and technical assistance, such as energy modeling, to support architects and engineers in designing high-performance buildings.

- » Commercial
- » Industrial
- » Multi-family

Commercial and industrial customers in the early stage of planning a new building or renovation larger than 5,000 square feet

Office buildings, grocery stores, manufacturers, warehouses, hospitals, private universities

INDUSTRIAL SYSTEMS

System assessments and financial incentives to reduce electricity used by compressed air, industrial refrigeration and process cooling systems. Process efficiency assessments and feasibility studies and incentives for combined heat and power (CHP) are also available.

- » Compressed air
- » Industrial refrigeration
- » Process cooling
- » CHP
- » Process efficiency

Commercial and industrial customers with demand ≥ 500 kW and one of the eligible systems

Commercial and industrial customers with demand ≥ 1000 kW eligible for CHP feasibility study

Large manufacturers, heavy and light industrial facilities, large commercial facilities, large healthcare facilities

INCENTIVE PROGRAMS

PROGRAMS	SAMPLE PROJECTS	ELIGIBILITY	BUSINESS EXAMPLES
RETRO-COMMISSIONING			
Expert analysis of building systems that identifies low-cost operational improvements to optimize electricity and gas usage.	<ul style="list-style-type: none"> » Update system operating schedules to improve energy efficiency and provide a comfortable indoor environment » Reduce supply air temperature and fan speed in air handling units » Optimize chiller or other equipment operation 	Commercial and industrial customers with demand \geq 100 kW	Office buildings, hospitals, educational facilities, medical clinics, retail, multi-family buildings
DATA CENTERS			
Technical assistance and cash incentives for installing energy efficient equipment and systems in new or existing data centers.	<ul style="list-style-type: none"> » Airflow management » Cooling optimization » Power delivery improvements » IT optimization 	Commercial and industrial customers with data centers	Offices, manufacturers, co-location facilities, corporate data centers, hospitals
SMALL BUSINESS ENERGY SAVINGS (SBES)			
Free energy assessments, instant incentives for energy efficiency improvements and installation by a qualified SBES Trade Ally.	<ul style="list-style-type: none"> » T12 - T8 lighting retrofits » Select LED lamps » Lighting occupancy sensors 	Commercial and industrial customers with demand <100 kW	Offices, small retailers, small restaurants, light industry, convenience stores, dry cleaners
ROOFTOP UNIT OPTIMIZATION			
Low-cost comprehensive tune-up of HVAC packaged rooftop units and split systems.	<ul style="list-style-type: none"> » Programmable thermostat modification or replacement » Tune-up » Economizer repair 	Commercial and industrial customers with HVAC packaged rooftop units and split systems	Small retailers, small restaurants, offices, light industry, convenience stores, office buildings, grocery stores, manufacturers, warehouses, hospitals
BUSINESS PRODUCTS DISCOUNTS (BPD)			
Energy efficient battery chargers and distribution transformers available to businesses at a reduced price through participating distributors.	Battery Chargers <ul style="list-style-type: none"> » Manufacturers » Warehouses 	Commercial and industrial customers with forklifts and other battery powered vehicles	Warehouses, distribution centers, manufacturers, universities, wholesalers, industrial facilities
	Transformers <ul style="list-style-type: none"> » Data centers » Industrial facilities 		

CONTACT US

ComEd Smart Ideas® Energy Efficiency Program offers energy assessments, cash incentives and technical services to help businesses use energy more efficiently. For more information, visit ComEd.com/BizIncentives, call 855-433-2700 during normal business hours to speak with a service representative or email us at SmartIdeasBiz@ComEd.com.
